

STYLE CHART

Ash is one of the widespread European hardwood species and with its excellent strength properties, the elegant, light appearance combined with the characteristic dark grain pattern, is very desirable as flooring. Over time, the natural ageing gives ash a warm and golden glow.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard.

The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade. Each photograph shows the average appearance of the grade. It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times.

Up to 5% of the staves may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

14 & 22 MM ASH STRIPBOARD SOLID HARDWOOD FLOORING

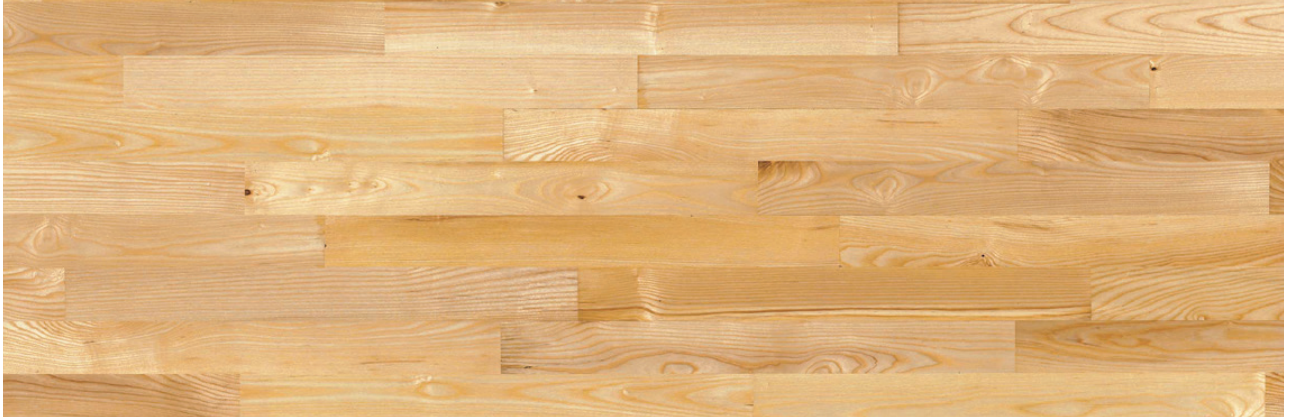

TECHNICAL INFORMATION

THICKNESS x WIDTH: 14/22 X 129 MM

ASH STRIPBOARD CLASSIC

This grade has a uniform look with very little colour and structural graining variation between the individual staves. Only few small knots and very fine hairline splits occur.

ASH STRIPBOARD HARMONY

This grade has a natural look where the share of heartwood adds a more distinct colour and structural graining variation between the individual staves. Medium sized knots and fine hairline splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.

ASH STRIPBOARD VARIATION

This grade has a rustic look with substantial colour and structural graining variation between the individual staves. Several small and large knots and fine hairline splits occur. Knots and other irregularities are to the greatest extent possible factory filled with a one colour filler.
