

Straight & Angled Safety Grab Rails

Description:

Although primarily used in the bathroom and toilet, grab rails can be positioned anywhere in and around the home to provide support. Conveniently placed rails will provide help in four ways:

- Push or pull against when standing up
- Provide a steadying support whilst sitting
- Provide a firm grip when moving from one position to another
- Provide assistance when standing, walking or dressing

The type and length required will depend upon the situation and the hand or arm strength of the person. A combination of vertical, horizontal and angled hand rails is often helpful. The following lengths and combinations are available: 12" (300mm), 18" (450mm), 24" (600mm) and angled. They are available in 4 different finishes - white, red, blue and chromium plated.

Features:

- Strong & Secure Grab Rail
- 32mm Diameter Steel Grab Bar
- Concealed Fixings
- Available in 3 Lengths & Angled.
- White, Blue, Red or Chrome Plated.
- Non Waterproof, Do Not Use in Shower Area
- Can support up to 100kg (Depending on wall fixings used)

Technical Data:

Material:	1mm Thick Mild Steel
Finish:	White, Blue or Red Powder Coated Chrome Plated
Rail Length:	12"(300mm), 18"(460mm), 24"(600mm) & Angled
Grab Rail Diameter:	32mm
Weight capacity:	100 kg (Depending on wall fixings used)
