

750mm (30") Hinged Grab Rails With a Hinged Support Leg

Description:

The Assist Range of Hinged 750mm Grab Rail is ideal for placing adjacent to a toilet or bath, helping users to raise and lower themselves whilst assured that they have a stable surface to lean on. The hinged design of this grab rail is very useful too, as it provides the flexibility to move with the person using it. Available in various colours and with a support leg for additional load bearing strength - recommended when fitting to stud/partition wall.

Features:

- Strong & Secure Hinged Grab Rail with Support Leg
- Space Saving
- Incorporates simple Lift & Lock Safety Mechanism.
- Adjustable Support Leg.
- Can support up to 135kg
(Depending on wall fixings used)
