

Knipex (KPX8701300)

# 87 01 300 Cobra® High-Tech Water Pump Pliers Plastic Coated Grip 300mm

The Knipex 87 01 Cobra Series Water Pump Pliers are made from chrome vanadium electric steel which has been forged and multi stage oil hardened for excellent durability. The gripping surfaces have special hardened teeth with hardness approx. 61 HRC to ensure high wear resistance and stable gripping. A press button action allows fast and firm adjustment directly on the workpiece. The pliers allow fine adjustment for optimum adaptation to different sizes of workpiece and are self locking on pipes and nuts to prevent slipping. Their box joint design provides high stability. A reliable catching of the hinge joint ensures no unintentional shifting. These Knipex Cobra High Tech Water Pump Pliers have the following specification: Length 300mm 12in Capacity Pipes 56mm Nuts 46mm Adjustment Positions 30.

**Length (mm)**  
300
