DESCRIPTION

2140 HYDRO: Full leather waterproof ankle boot using 100% metal free/composite safety components, fully certified to the **NEW EN 20345: 2022 safety standard**. Using a full waterproof membrane to protect feet from any moisture penetration when working in wet environments. Full leather upper offers extra resistance to harsh environments keeping feet protected. High ankle design with built in padded support protects ankles and enables stability of movement when working. Front moulded toe guard keeps durability when working on rough surfaces. Slip resistant outsole has tread pattern conducive to gripping surfaces and reducing slips. Dual density polyurethane outsole protects from slips and offers excellent impact absorption. Product tested and certified to EN 20345: 2022 safety standards and slip tested to SRC for highest level of anti-slip protection. Manufactured in accordance with **ISO 9001 Quality Management** and **ISO 14001 Environmental Management** systems.
