

STANLEY® Hand Tools (STA112204) H.1204 Handyman Plane (2in)

This Stanley Handyman Bench Plane is ideal for workshop site or finishing work. It has a precision cast fine grey iron base for stability and wear resistance. The handle and knob are made of virtually unbreakable polypropylene and are shaped for comfort.

It has a chrome carbon steel cutter which is hardened and tempered to retain a keen cutting edge. This plane has fingertip adjustment for depth of cut and cutter alignment and a fully adjustable frog for all tasks and timber types. Its kidney shaped lever cap screw hole prevents accidental slippage of the cutter.
