

STANLEY® Hand Tools (STA197518)

FatMax® Deep Professional Organiser

The Stanley FatMax® Deep Professional Organiser has 10 removable storage compartments providing storage for small parts, components or accessories which can also be stacked together for use outside the organiser. Made from polypropylene, the organiser has a virtually unbreakable lid allowing the contents to be viewed easily and features a waterproof seal that not only prevents water but also rust and foreign particles from entering. A plastic handle with textured grip allows the organiser to be moved comfortably while the organiser's lid has been specially designed to ensure that the compartments are held securely in place and fastens with two metal latches. For added versatility, multiple organisers can be clipped together using the side latches for easy transportation.
