500 ml e

HG limescale remover concentrate

- removes stubborn scale quickly and thoroughly
- super concentrated

An extremely powerful product to remove persistent limescale, rust stains, yellow stain deposits and copper oxide. *HG limescale remover concentrate* is however safe for all the materials that are used in a bathroom or toilet, such as chrome, stainless steel, ceramics, glaze, glass, crystal and various types of plastic.

Dosage: Depending on the degree of soiling, use undiluted or dilute up to 1:10. For bathtubs always dilute 1:10.

Directions for use: Test *HG limescale remover concentrate* with a sponge on a small and inconspicuous place first. Apply with the *HG sanitary sponge*. Leave to work for a few minutes, then wipe/rinse off with water. Repeat the treatment if necessary. Immerse badly functioning shower heads in *HG limescale remover concentrate* for 30 minutes and finish off by brushing. Afterwards rinse off thoroughly with water.

Attention: Transport and store the bottle upright. Besides the familiar silver-coloured sanitary ware (made of chrome), there is now also sanitary ware of different colours that is not acid-resistant. Before using this product, check the manufacturer's maintenance instructions for the sanitary ware. Do not use on marble, travertine, granito, blue Belgian limestone and
